

# CALIFORNIA FY 2018 LIHEAP PERFORMANCE MANAGEMENT SNAPSHOT

In FY 2018, California furnished LIHEAP bill payment assistance to 210,626 households. They collected energy burden data for 71,291 households (34%)

## Does LIHEAP furnish higher benefits to higher burden households?

**Yes.** In California, the total LIHEAP benefit received by high burden households in FY 2018 was about **\$92 (24%) more** than the total LIHEAP benefit received by the average recipient household.

## Does LIHEAP pay a larger share of the home energy bill for high burden households?

**No.** In FY 2018, LIHEAP paid **19.9%** of the energy bill for average households in California, while LIHEAP paid **13.3%** of the energy bill for high burden households.

### All Households

### High Burden Households

## Prevention and Restoration of Home Energy Service Loss

### As a Result of Bill Payment Assistance

### As a Result of Equipment Repair or Replacement

In FY 2018, LIHEAP benefits in California **prevented the loss of service 112,842 times**, by stopping threatened utility service disconnections and by delivering fuels to homes that were at risk of running out. In addition, the program **repaired or replaced heating or cooling equipment at imminent risk of failure 3,960 times**.

In FY 2018, LIHEAP benefits **restored home energy service 12,026 times** for households who had been disconnected by their utility provider or who had run out of fuel oil, propane, or wood. In addition, the program **restored home energy service 2,223 times by repairing or replacing inoperable heating or cooling equipment**.

\* High burden recipient households represent 25% of all recipient households with 12 months of bill data, based on having the highest energy burden. The attached State Snapshot provides detailed income, energy cost, and burden statistics across all fuel types.
